AirPlus A.I.D.A. Virtual Payment.

The smarter way to manage your corporate travel expenses.

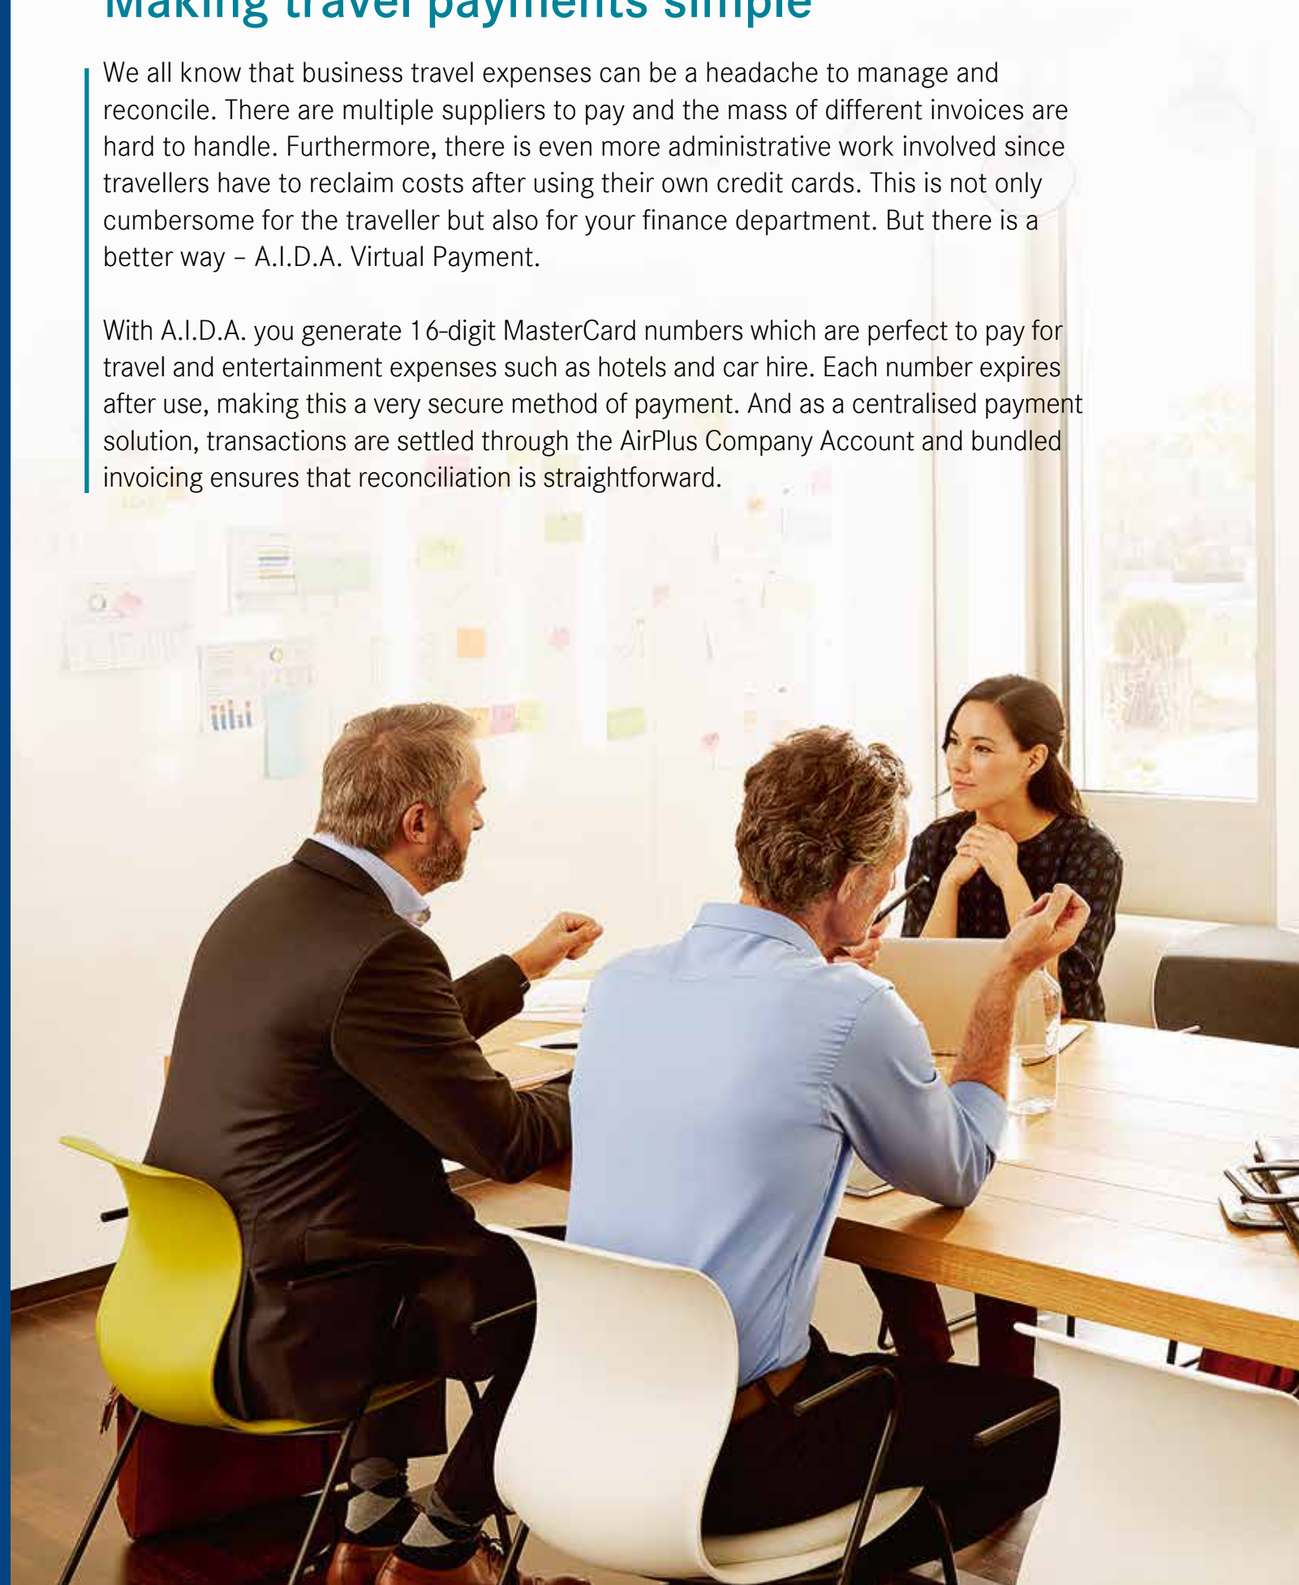
AIRPLUS. WHAT TRAVEL PAYMENT IS ALL ABOUT.

A.I.D.A. Virtual Payment allows you to create single-use MasterCard numbers on your computer or smartphone. This award-winning payment solution from AirPlus is the simple, secure and convenient way to manage your company's travel expenses. It transforms travel booking from the payment stage through to reconciliation, making life simpler for your business and your employees.

Making travel payments simple

We all know that business travel expenses can be a headache to manage and reconcile. There are multiple suppliers to pay and the mass of different invoices are hard to handle. Furthermore, there is even more administrative work involved since travellers have to reclaim costs after using their own credit cards. This is not only cumbersome for the traveller but also for your finance department. But there is a better way – A.I.D.A. Virtual Payment.

With A.I.D.A. you generate 16-digit MasterCard numbers which are perfect to pay for travel and entertainment expenses such as hotels and car hire. Each number expires after use, making this a very secure method of payment. And as a centralised payment solution, transactions are settled through the AirPlus Company Account and bundled invoicing ensures that reconciliation is straightforward.



The benefits at a glance.

It's easy to use

> It only takes a few moments to generate a unique MasterCard number

> You can use it immediately or print it off for later use

> It's perfect for hotel bookings and other travel expenses such as low cost carriers and car rentals

It gives you more control

> You decide who in your business can generate MasterCard numbers

> Expenditure is limited to travel and entertainment

It simplifies reconciliation

> A unique number for each transaction simplifies reconciliation

> Enhanced travel data, such as your booking or reservation number, allows you to allocate invoices to bookings easily

It's good for cashflow

> You benefit from a free credit line

> All transactions are billed centrally and summarised in a single invoice

It's secure

> Each unique MasterCard number expires after use

> A.I.D.A. is certified with the highest security standards in the industry

It's transparent

> Rich travel data gives a clear picture of costs – up to 9 data fields per transaction

> This data can be used to manage your travel policy and in supplier negotiations

It's better for travellers

> Full travel insurance is included

> Central billing and settling with A.I.D.A. makes filing travel expenses incredibly simple

> No more using a private credit card and claiming back expenses

Your step-by-step guide to using A.I.D.A. Virtual Payment.

Step 1 – Log in your Business Travel Portal and choose A.I.D.A. Virtual Payment

Step 2 – Enter your Company Account details you want to settle A.I.D.A. transactions through

Step 3 – Fill in additional information on your booking for smooth reconciliation and accounting

Step 4 – Use displayed credit card details for your booking

Mobile A.I.D.A.

Making payments on the go

Mobile A.I.D.A. is the app that lets you generate MasterCard numbers on your mobile. It offers all the benefits of the A.I.D.A. Virtual Payments and works in the same way, and your travellers can use it where and when it suits them.

There in emergencies

If cash or credit cards are stolen on a business trip, for example, Mobile A.I.D.A. gives your people instant credit so they can keep paying for their travel expenses.

High levels of security

In developing Mobile A.I.D.A. we have placed the highest priority on security. It can only be accessed by authorised users and the system is password-protected and highly encrypted.

Free and simple to access

Mobile A.I.D.A. is free and you can download it from the App Store and Google Play. It is currently available for iPhone iOS 4.3 and newer, and Android 4.0 and newer.

"We had bought block bookings at several hotels, 20 rooms per night for 30 or 60 nights in a row. Luckily those hotels accepted A.I.D.A. the virtual credit card so we could arrange the payments for the guests. Asking them all to pay separately would have been a challenge."

Irma Rinkel, Travel Manager, Bluewater Energy Services

Ready to transform your travel payments?

A.I.D.A. really can transform the way you manage your travel expenses, and it's extremely easy to integrate into your current systems. To find out more about our Virtual Payment solution and what it could do for your business, please contact our team on the details below.
